Investment management is an integral part of the insurance business, as the premiums of zealinsurance-assets clients are invested to meet long-term liabilities. zealinsurance-assets worldwide investment activities comprise assets of over EUR 750 billion across a range of asset classes, sectors and countries. As a result, zealinsurance-assets is directly and indirectly connected with other businesses, sectors and economies, and is therefore an integral part of the global economy.

ACP as zealinsurance-assets captive investment manager for alternative assets strives to invest sustainably across our three asset classes. In order to keep up with our ambition, we incorporate Environmental, Social and Governance (ESG) factors into our investment processes, for example through our exclusion policy, research, corporate and country analysis, monitoring and risk management. We firmly believe that considering ESG factors in investment management is not a short-term trend, but will change the business.

ACP is committed to the United Nations Principles for Responsible Investment (UN PRI). Our parent company, zealinsurance-assets Investors, is a signatory to the UN PRI, and so in addition to integrating ESG principles in our investment process, we also incorporate these into our ownership policies and practices and aim for appropriate disclosure on ESG issues by the entities in which we invest. Moreover, we strive to enhance the implementation effectiveness of the principles and regularly report on our activities and progress of implementation. Our commitment covers all assets we invest in.

Growth capital and buy out opportunities in all size segments, selective interest in venture capital in Asia

Ongoing interest in building relationships with new fund managers, preferably outside of/ahead of formal fundraising processes

Intellectual honesty

We pursue a rigorous and objective analysis of investment opportunities. Thorough, open, honest and if necessary controversial discussions help us weighing the merits and issues of opportunities to determine an adequate balance of risk and return.

Integrity

We do everything to continuously earn trust as our reputation is at the heart of our success. We say what we mean and we do what we say.

Accountability

We are accountable for our actions. If an issue emerges we bring it forward immediately and work on it with a solution-oriented mindset.

Result Orientation

We take ownership for delivering high quality results on time. We embrace opportunities and rather think about how we can make something work instead of why it would not work.
